Job Summary:

Performs comprehensive residential building plan reviews on every residential project, alteration or remodel submitted to the City of Meridian. Verify through plan review, corrections and re-submittal that all project submittals meet the minimum life safety compliance of the adopted codes and other resources and reference materials as adopted by the City of Meridian prior to permit issuance. Plan review shall include, but not be limited to, determination of a legal parcel, site setback and easement verification, fire separation requirements, energy (Rescheck), re-submittals and compliance for any and all residential building projects and applications received by the City of Meridian. Utilizes several tools such as enterprise software, building plan review software and plan review checklists. Provides written plan review reports to applicants and design professionals to ensure accuracy and consistency of all plan reviews. Performs plan review of all resubmittal requests to verify that identified deficiencies have been corrected prior to final approval. Prepares plans and documentation for issuance of building permits. Works independently within a scheduled routine receiving general direction and supervision from the Plan Review Supervisor.

Essential Duties & Responsibilities:

Performs plan reviews on residential construction plans, and specifications for new one and two-family dwellings and townhouses, building additions, and building alterations for residential buildings to verify compliance with the International Residential Codes (IRC), International Energy Conservation Code (IECC), floodplain codes, planning codes and ordinances as adopted by the City of Meridian;

Provides primary front counter assistance and guidance through the City's permitting and inspection processes to customers including contractors, home owners and citizens;

Responds to questions about residential building codes;

Provides building code interpretations and technical advice orally, graphically, and in writing;

Explains the building permit review processes to a diverse range of people including architects, engineers, developers, building inspectors, and non-technical people with a varying range of expertise;

Resolves conflicts and communicates options for code compliance;

Schedules and leads meetings to answer questions and facilitate services for residential projects;

Provides frequent technical support, direction, and mentoring to the building permit counter customers;

Collaborates with building inspectors on plan submittals and plan changes after permit issuance;

Works with building inspection staff, contractors and design professionals after the permit has been issued to resolve code issues encountered during construction;

Ability to handle a large volume of submittals and customer service, foresee and resolve conflict at a high level, prioritize tasks, effectively prioritize workload to minimize complaints and maximize efficiency, read and interpret residential building plans and specifications;

Evaluate structural engineering reports and calculations, perform general math calculations, interpret adopted codes, explain technical information and code requirements by oral, written and graphic means create and provide training and technical support to others, work cooperatively with management and the Building Official to resolve complex issues;

May review submitted certificates of valuation for projects;

Utilize the city's enterprise software, and provide data entry and comments related to plan review workflows;

When plan reviews are delayed and a resubmittal is requested the building plan reviewer shall add comments to the system so City staff is aware of the resubmittal request;

Communicate effectively at a level necessary for efficient job performance;

Complete assignments in a timely fashion and recommend process enhancement for faster timeline to permit;

Prioritizes and organizes own work to meet deadlines;

Will perform over-the-counter reviews and approvals at times based on management direction;

Collaborates with other plan reviewers and inspectors on all deferred plan submittals and plan modifications received by the City;

Reviews and recommends changes to the local amendments when preparing for adoption of new codes;

Collaborates with the building official and other city personnel to confirm final project approvals as needed, before the certificate of occupancy is issued;

Attends code training and code update seminars to stay current with code changes through the International Code Council (ICC);

Maintains continuing education units for International Code Council certifications;

Handles sensitive and delicate situations with a high degree of confidentiality and in a courteous, professional, and timely manner;

Works independently and under the direction of the Building Plans Examiner Supervisor;

Assist City in enforcing appropriate ordinances related to land use, Flood Damage Prevention Ordinance, building sites, and building uses;

Provide plan review comments, redlines, re-submittal requests and other correspondence via email to design professional of record and archive in the location specified by City;

Stamp the electronic or hardcopy plan set(s) with appropriate language to signify approval or rejection;

Attend meetings, provide support, training, and input related to a future electronic plan submittal program that includes an electronic document review program;

Performs other duties as assigned.
